

Transnational Project Event in Viator

The event took place between the 23rd and 26th of January 2020 in Viator.

As all the project's events, the final event in Viator had as an aim to enhance the transfer of good practices between countries and organisations, thereby promoting the role of local communities, active citizenship, volunteering, and solidarity, as well as understanding the threats that Euroscepticism poses.

On the first day, the delegations of the Project arrived in Viator where the municipality organised a welcome dinner.

On the second day, a welcome and introductions session took place in order for the members of the delegations to meet. In the afternoon session, the delegation of Paionia presented its members' experiences of the refugee crisis in Idomeni.

The third and last day, included presentations by Spanish NGOs that work on the reception and integration of refugees and immigrants in the Andalusian region.

Project video has been launched!
